DESCRIPTION

=====

Reported by: Robert Rodriguez
Trouble Code: CTL - CONTROL WORK
Remote work with Robert Rodriguez
see email 8-16

Site visit to assist PG&E air balancer.
Put units into max and min, found AC1 and AC2
not responding to controls. Customer will follow up
regarding approval of additional work to diagnose AC1
and AC2. PG&E will not certify units until call to
diagnose these units is approved by customer.
AMI technician has left 2 voicemails regarding this
additional needed approval.
