Product Content Label

This is a renewable certificate product. For every unit of renewable electricity generated, an equivalent amount of renewable certificates is produced. The purchase of renewable certificates supports renewable electricity generation, which can help offset conventional electricity generation in the region where the renewable generator is located. You will continue to receive a separate electricity bill from your utility. This product matches up to 100% of your estimated electricity usage. The product will be made of any of the new renewable resources listed below and updated annually.

Clean Source™ contains some or all of the following New ¹ Renewable Resources	Generation Location
Wind, Biomass, Small Hydro, and Geothermal	United States

(1) Includes renewable generation that first started operating after January 1, 1999 or as regionally defined.

For comparison, the current average mix of energy sources supplying the U.S. includes: Coal (50%), Nuclear (20%), Natural Gas (18%), Large Hydro-electric (7%), Oil (3%), and Renewables (2%). (data from USEPA E-GRID)

For specific information about this product, contact Renewable Choice Energy at 877-810-8670 or on the web at www.renewablechoice.com.

The Green-e® Energy Program certifies that Clean Source™ meets the minimum environmental and consumer protection standards established by the non-profit Center for Resource Solutions. For more information on Green-e Energy certification requirements, call 1-888-61-GREEN or log on to www.green-e.org.
