ALL OPTIONS

Refer to the project's Green Cleaning Policy from IEQ Prerequisite 3, as that establishes the policies, goals, and practices that lead to achieving IEQ Credit 3.4.

Performance period start: Apr 1, 2012

Performance period end: Jul 31, 2012

The project team has implemented a program for the use of janitorial equipment within the project building and associated grounds that reduces building contaminants and minimizes environmental impact during the performance period. The program requires that newly purchased janitorial equipment meet the requirements in IEQ Credit 3.4.

- ☒ All powered cleaning equipment in use within the project building and associated grounds is routinely maintained to optimize performance.
- ☒ The sustainable cleaning equipment program has been implemented such that at the close of the performance period at least 20% of janitorial equipment (as measured by either the number of equipment items or purchase price) in use within the project building and associated grounds meets one of the required sustainability criteria other than the equipment safeguard requirement (i.e., rollers or bumpers). The compliant equipment may have been purchased either during or before the performance period.
- ☒ All janitorial cleaning equipment purchased for the project building and associated grounds during the performance period complies with all of the relevant required sustainability criteria for this credit.

Complete Table IEQc3.4-1 identifying each piece of powered cleaning equipment in use, the date of equipment purchase, and the applicable sustainability criteria met by each equipment item, if any. Estimated purchase dates may be used for equipment purchased before the performance period. (At least 20% of items must comply with one or more of the criteria other than those for equipment safeguards. Equipment purchased during the performance period must comply with all relevant criteria.)

Select one of the following:

- ☐ The project building is a single management/control building, pursuing no tenant-related exemptions and needs no tenant-related special calculations.
- ☒ The project building is a multi-tenant building.

MULTI-TENANT BUILDING

10% EXEMPTION

Select one of the following:

- ☐ Up to 10% of the building's gross floor area is exempted from this credit and from the data about sustainable purchases because it is occupied by tenants that would not share data on total purchases.
- ☒ The data relating to sustainable equipment are comprehensive and do not include any exemptions.
