- ☒ The plan includes the following elements:
- Integrated methods;
 - Routine site inspections and maintenance;
 - Routine pest inspections;
 - Pest population monitoring;
 - Evaluation of the need for pest control and one or more pest control methods;
 - Specification of the circumstances under which an emergency application of pesticides can be conducted without complying with the earlier provisions;
 - A communication strategy directed to building occupants that addresses universal notification if pesticides other than least-toxic options are utilized.
- ☒ Any cleaning products included in the IPM plan meet the requirements for IEQ Credit 3.3.

Select as applicable to the project building:

- ☐ Pesticide application occurred during the performance period.

ADDITIONAL DETAILS

- ☐ Special circumstances preclude documentation of credit compliance with the submittal requirements outlined in this form.

☐ The project team is using an alternative compliance approach in lieu of standard submittal paths.
