Order Acceptance: The undersigned agrees that they are authorized to and have accepted this order and the tariffs outlined on this page on behalf of Renewable Choice Energy.

ARAN RICE • VICE PRESIDENT OF SALES • RENEWABLE CHOICE ENERGY

2016 Prospective Product Content Label

This is a renewable energy certificate product. For every unit of renewable electricity generated, an equivalent amount of renewable energy certificates is produced. The purchase of renewable energy certificates supports renewable electricity generation, which can help offset conventional electricity generation in the region where the renewable generator is located. You will continue to receive a separate electricity bill from your utility. This product matches up to 100% of your estimated electricity usage. The product will be made of any or all of the new renewable resources listed below and updated annually.

Clean Source™ contains some or all of the following New ⁽¹⁾ Renewable Resources	Generation Location
Wind, Solar, Low-Impact Hydro, Gaseous Biomass, Non-gaseous Biomass	North America

(1) Includes renewable generators that first started operating after January 1, 2002 or as regionally defined.

For comparison, the current average mix of energy sources supplying the U.S. includes: Coal (37.4%), Natural Gas (30.3%), Nuclear (19.0%), Large Hydro (6.7%), Renewables (5.4%), Oil (0.7%), and Other (0.5%). (data from EPA's eGRID2012)

For specific information about this product, contact Renewable Choice Energy at 877.810.8670 or on the web at www.renewablechoice.com.

The Green-e® Energy Program certifies that Clean Source™ meets the minimum environmental and consumer protection standards established by the non-profit Center for Resource Solutions. For more information on Green-e Energy certification requirements, call 1.888.63.GREEN or log on to www.green-e.org

2016 Carbon Offset Content Label

Carbon Offset Name: Green-e® Climate Landfill Gas Carbon Offset
These emissions reductions were created in: 2010 – 2018

Project Type	Project Certification	Project Location	% of Product*
Landfill Gas	Climate Action Reserve	United States	100%

Green-e® Climate is an independent certification program for greenhouse gas emissions reductions (carbon offsets) sold in the voluntary market. The Green-e Climate logo identifies carbon offsets that meet the program's high environmental and consumer protection standards. For more information on Green-e Climate certification requirements, visit www.green-e.org/climate or email climate@green-e.org.

Visit <http://www.renewablechoice.com/projects/> for a list of Projects.

* The percentages listed are prospective. Actual figures may vary. For more information in how much they can vary see the Price, Terms & Conditions.

Limited Representations and Warranties of Renewable Choice Energy (RCE). RCE represents and warrants to Client that the Products retired under this Agreement (i) have not been sold, transferred, contracted for or otherwise committed to any third party, or otherwise used or claimed by RCE or, to the best knowledge of RCE, any third party and (ii) have been independently certified. EXCEPT AS SPECIFICALLY SET FORTH HEREIN, THE PRODUCTS ARE SOLD “AS IS”, AND RCE SPECIFICALLY DISCLAIMS ANY AND ALL OTHER REPRESENTATIONS AND WARRANTIES, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Retirement. Client shall not resell or otherwise transfer the Products. Products (or any portion thereof) are considered retired when RCE removes them from inventory.

Limitation on Liability. In no event shall either RCE or Client be liable to the other or to any third party under or in connection with this Agreement for any special, indirect, incidental, punitive, consequential or similar damages, including, without limitation, any damages resulting from lost profits.

PRICING, TERMS, AND CONDITIONS

These carbon offsets are certified by Green-e® Climate, which requires companies to provide their customers with this notice of Pricing, Terms, and Conditions of service. Information about the price of purchase may be found in the accompanying Purchase Agreement.

Green-e Climate is an independent certification program for greenhouse gas emissions reductions (carbon offsets) sold in the voluntary market. The Green-e Climate logo identifies carbon offsets that meet the program's high environmental and consumer protection standards. For more information about Green-e Climate, visit www.green-e.org/climate, email climate@green-e.org, or call toll-free 1-888-63-GREEN.

These carbon offsets represent the reduction of a specific quantity of greenhouse gas (GHG) emissions. By purchasing these offsets, you alone have the right to all associated claims about the environmental benefits they embody. Carbon offsets are to be regarded as a real environmental commodity, not a donation or investment in a future emissions reduction project. The verified GHG emissions reductions you purchased are sourced from projects that have been validated and registered under high-quality project standards.

The Carbon Offset Content Label represents the mix of project types, locations, and verification programs that will be used to supply your offsets. The actual percentages or metric tons of GHG emissions reductions by type may vary by a small percentage. In the case of a significant variance, the Seller of the Certified Offsets is obligated to provide you with more accurate historical disclosure. For more information see the Green-e Climate Code of Conduct available at www.green-e.org.

PROJECT LIST

PROJECT NAME	PROJECT TYPE	LOCATTION (COUNTRY)	START DATE	ENDORSED PROGRAM
Granger South Jordan Landfill Gas Destruction Project	Landfill Gas Capture/Combustion	United States	6/29/2005	Climate Action Reserve
